SUMMARY

I am WordPress Developer with over 4 years of experience in web development, with background in both front-end and back-end technologies. As a WordPress Developer, I have been responsible for developing and maintaining web applications both for different clients and for company requirements.

EXPERIENCE

WordPress Developer

SIGMA 📅 2021 - Ongoing 📍 Malta

Working on 8 projects, creating and customizing WordPress themes using HTML, CSS, JavaScript, and PHP.

Creating responsive and mobile-friendly websites using modern design principles and ensuring cross-browser compatibility.

Implemented e-commerce functionality using WooCommerce, including product catalog setup, payment gateway integration, and order management.

Collaborating closely with design and UX/UI teams to ensure seamless integration of designs into WordPress websites.

Conducting code reviews, identifying performance bottlenecks, and optimizing website speed and load times.

Web Developer

iRevolucija 📅 2019 - 2021 📍 Valjevo

Developing and maintaining the website, front and back-end functionality of the website to produce clean code that follows the design and functional specifications.

Installing and setup of existing the website, fixing website bugs and enhancing the website.

PREVIOUS PROJECTS

Moya Ayurveda

Description: Developed a fully functional e-commerce website using Elementor and WooCommerce. This project included customizing the design and layout, setting up product catalog, implementing payment gateways, and optimizing for user experience and performance.

ArtKomad

Description: Led the development of a custom website for a handmade furniture company. Utilized PHP for server-side functionality, CSS and Bootstrap for responsive design, and jQuery for interactive elements. Built a custom admin panel for easy product management, including adding, updating, and categorizing products. The website showcased the company's unique furniture offerings and allowed customers to browse and purchase products seamlessly.
